

Websites for working exchanges from Anne Kinzel.

This includes complex exchanges and informational type exchanges, old and new:

- [LifeLong Links](#) – This informational website provides information to Iowa consumers and healthcare providers in the area of long-term living. Patty Funaro suggested it as an interesting form of informational exchange.
- [Utah Health Exchange](#) – We had discussed Utah's exchange last fall as we were developing recommendations regarding an Iowa exchange. It appears that the website has become more sophisticated in the intervening months.
- [Massachusetts Connector](#) – This is the home for the Massachusetts Commonwealth Choice marketplace, a very complex exchange operated by Massachusetts and mentioned by many as the type of site and operation that is envisioned in the Patient Protection and Affordable Care Act.
- [CalPers](#) – This is the home of CalPERS one of the original employee benefit exchanges. Another long-term exchange is the [Federal Employee Health Benefits Program](#).

I hope you find these resources useful as we continue our discussion regarding health insurance exchanges.
